Here is Bongo Cat

Summary

This is the very simple story of Bongo Cat. A cute cat that exists to help his users use their computers more often.

- A translation of Voici le Bongo Cat by MiaQc

Meet Bongo Cat. A cute cat that exists to help users use their computers more often. The more they type on the keyboard and click their mouse, the more the number on the counter next to the cat increases. Every half hour, users can win items to customize the cat such as skins, hats and emojis. The Bongo Cat is happy. He loves having so many users and fans. It's a shame he can only say “meow meow” when clicked.
